

# Subject: Request for Clarification Following Pre-Med Advising Session

Dear [Advisor's Name],

I hope this message finds you well. I wanted to take a moment to thank you for the insightful advising session we had on [date]. I truly appreciate your guidance regarding my pre-med path.

However, there are a few points that I would like to clarify further:

1. **Course Recommendations:** I am uncertain about the specific courses you suggested for the upcoming semester. Could you please confirm which ones I should prioritize?
2. **Extracurricular Activities:** You mentioned the importance of gaining practical experience. Can you provide more details on the types of activities you think would be most beneficial?
3. **Application Timeline:** I would like to clarify the timeline for medical school applications that you outlined. Should I start preparing my materials earlier than you indicated?

Thank you for your assistance in helping me navigate this process. I look forward to hearing from you soon.

Best regards,
