Subject: Request for Change of Advisor Due to Mentorship Style Preference

Dear [Current Advisor's Name],

I hope this message finds you well. I am writing to formally request a change of advisor for my ongoing research project. After careful consideration, I believe that a different mentorship style would better support my academic and professional development.

While I appreciate and respect the guidance you have provided thus far, I have come to realize that my preferred learning and working style may not align with our current mentoring arrangement. Specifically, I feel that I would benefit from a more collaborative and hands-on approach, which I hope to find in a new advisor.

I value the time we've worked together and have gained valuable insights from our discussions. However, I believe that a change would be in the best interest of my progress and overall productivity.

Thank you for your understanding, and I hope to discuss this matter further. I look forward to your response.

Sincerely,  
[Your Name]
