Dear [Recipient Name],

I am writing to suggest the installation of an additional traffic signal at the intersection of [Intersection Name/Location]. I have observed that this area experiences significant traffic congestion, especially during [describe peak times].

Adding a traffic signal could enhance safety for both pedestrians and motorists. Moreover, it could effectively regulate the flow of traffic, thereby reducing the likelihood of accidents and improving overall travel times.

Thank you for considering this suggestion. I believe that implementing this change would greatly benefit our community. I would be happy to discuss this further or provide any additional information.

Sincerely,

[Your Name]
