Dear [Recipient's Name],

I am writing to inquire about the possibility of modifying the traffic signals at the intersection of [Intersection Name] for the purpose of enhancing safety for both pedestrians and drivers. Recently, there have been several near-misses and accidents reported, which raises concerns about the current signaling patterns.

Given the increase in traffic and pedestrian activity, I believe it is imperative to consider changes that could improve visibility and timing for all road users. Specifically, I would like to suggest the following improvements:

- Adjusting the signal timing to allow for more pedestrian crossing time.
- Installing additional signage to alert drivers of pedestrian presence.
- Implementing a dedicated turn signal for vehicles.

I would appreciate the opportunity to discuss this matter further and explore potential solutions. Thank you for your attention to this important issue of community safety.

Sincerely,

[Your Name]
