[Municipality Address]

Dear [Recipient's Name],

I am writing to provide my feedback on the proposed plans for expanding municipal broadband in our community. As a resident of [Community/Neighborhood Name], I believe that access to high-speed internet is essential for our growth and development.

Firstly, I appreciate the initiative to improve internet accessibility, especially for underserved areas. This expansion can help bridge the digital divide and provide all residents with the opportunities that reliable internet offers.

Additionally, I would suggest considering a tiered pricing model to accommodate various income levels, ensuring that all households can benefit from this service. Community outreach programs can also educate residents about the available options once the service is deployed.

Moreover, incorporating public feedback sessions into your planning process will help align the expansion with community needs. Engaging with local residents can provide valuable insights into the specific challenges faced by different neighborhoods.

Thank you for your attention to this important matter. I look forward to seeing how the plans evolve and supporting efforts to bring high-quality broadband service to our community.

Sincerely,

[Your Name]
