

Password Security Guidelines

Dear [Recipient's Name],

In an effort to enhance our security measures, we would like to provide you with some important guidelines for maintaining secure passwords:

- Use a minimum of 12 characters, combining uppercase letters, lowercase letters, numbers, and symbols.
- Avoid using easily guessable information such as birthdays, names, or common words.
- Do not use the same password across multiple accounts.
- Change your passwords regularly, ideally every three to six months.
- Enable two-factor authentication whenever possible for an added layer of security.
- Store your passwords in a secure password manager.

By following these guidelines, you can help protect your personal information and our organization's data. If you have any questions or need assistance, please feel free to reach out.

Best regards,
[Your Name]
