

Layout Preferences for Revamped Website

Dear [Web Designer/Team Name],

I hope this message finds you well. As we begin the process of revamping our website, I wanted to share my layout preferences to ensure we create a visually appealing and user-friendly experience.

1. Header Design

I prefer a clean and minimalistic header that includes:

- Logo positioned on the left
- Navigation bar centered
- Search bar on the right

2. Homepage Layout

The homepage should feature:

- A large hero image with a headline and call-to-action button
- Three featured sections highlighting our services
- Customer testimonials section

3. Color Scheme

I suggest using a color scheme that incorporates:

- Primary color: Blue
- Secondary color: White
- Highlight color: Orange

4. Footer Design

The footer should include:

- Quick links to important pages
- Contact information
- Social media icons

Thank you for considering my preferences. I look forward to discussing this further.

Best regards,
