Subject: Latency Measurement Report

## Introduction

This report outlines the latency measurements taken for [Insert Project/Service Name] during the period of [Insert Time Frame].

## Measurement Methodology

The latency measurements were conducted using [Insert Tools/Techniques], focusing on the following key performance indicators:

- Response Time
- Throughput
- Error Rates

## Findings

Measurement Date	Average Latency (ms)	Maximum Latency (ms)
[Insert Date]	[Insert Average]	[Insert Maximum]

## Conclusion

The latency measurements indicate that [Insert Summary of Findings]. Recommendations for improvement include [Insert Recommendations].

## Next Steps

We recommend monitoring the latency metrics over the next [Insert Time Frame] to ensure performance is optimized.
