Subject: Feedback on the Proposed Water Usage Policy

Dear [Recipient's Name],

I hope this message finds you well. I am writing to provide feedback on the recently proposed water usage policy. After reviewing the document, I appreciate the effort put into promoting sustainable practices for water conservation.

However, I would like to highlight a few areas where I believe further clarification or adjustment may be beneficial:

- **Clarity on Usage Limits:** It would be helpful to specify the exact limits on individual water usage to ensure compliance and understanding among residents.
- **Incentives for Conservation:** Introducing incentives for households that exceed conservation targets could encourage more efficient water use.
- **Monitoring and Reporting:** Regular updates on water usage statistics could foster a sense of community responsibility.

Thank you for considering my feedback. I look forward to discussing this further and contributing to a successful implementation of the water usage policy.

Sincerely,

[Your Name]
