Subject: Tree Branch Trimming Guidelines for Enhanced Park Safety and Aesthetics

Introduction

To ensure the safety and aesthetic appeal of our parks, the following guidelines have been established for tree branch trimming. Adhering to these standards will enhance the overall experience for park visitors.

Guidelines

1. **Timing:** Perform trimming ideally during the late winter or early spring to minimize stress on the trees.
2. **Tools:** Use clean, sharp tools to ensure precise cuts and reduce infection risk.
3. **Cutting Technique:** Utilize proper cutting techniques to promote healthy growth. Avoid leaving large stubs that can attract pests.
4. **Safety Precautions:** Always wear appropriate safety equipment, including gloves and goggles.
5. **Debris Management:** Ensure all cut branches and debris are properly disposed of to maintain park cleanliness.
6. **Monitoring:** Regularly monitor trimmed trees for any signs of disease or distress post-trimming.

Conclusion

By following these guidelines, we can maintain the beauty and safety of our parks while supporting the health of our trees. Thank you for your attention to this important matter.

Best Regards,
