Dear [Recipient's Name],

I am writing to formally express my concerns regarding the application of pesticides in proximity to my beekeeping operation located at [Your Location].

As a responsible beekeeper, it is imperative that I protect my bees from harmful substances that can adversely affect their health and the surrounding ecosystem.

On [specific date], I observed [describe the incident, e.g., dead bees, reduced hive activity], which I believe is a direct result of pesticide application from [specific location, e.g., neighboring farm].

I kindly urge you to reconsider the use of pesticides, especially during critical pollination periods, and to explore alternative pest management strategies that are less harmful to pollinators.

Thank you for your attention to this urgent matter. I look forward to your prompt response.

Sincerely,

[Your Name]
