Subject: Irrigation System Malfunction Report

Dear [Recipient Name],

I am writing to report a malfunction in the irrigation system located at [Location/Field Name]. The issues observed are as follows:

- Failure to activate on the scheduled times.
- Uneven water distribution across the designated areas.
- Visible leaks in several sections of the piping.

The malfunction has resulted in insufficient watering of plants, which could lead to adverse effects on crop health. I recommend that a technician be dispatched to assess and repair the system as soon as possible.

Please let me know how you wish to proceed.

Thank you for your attention to this matter.

Sincerely,

[Your Name]
