Cybersecurity Audit Request for Post-Incident Analysis

Date: [Insert Date]

To: [Recipient's Name]

From: [Your Name]

Subject: Request for Cybersecurity Audit Following Recent Incident

Dear [Recipient's Name],

In light of the recent cybersecurity incident that occurred on [Insert Date of Incident], we are initiating a post-incident analysis to assess the impact and identify vulnerabilities within our systems.

We would like to formally request a comprehensive cybersecurity audit to be conducted by your team. The audit should focus on the following areas:

- Identification of security breaches and vulnerabilities
- Impact assessment of the incident
- Review of existing security protocols and measures
- Recommendations for prevention of future incidents

The findings from this audit will be crucial in developing our response strategy and improving our cybersecurity posture. Please let us know your availability to discuss this further and any preliminary information you may need from us to begin this process.

Thank you for your attention to this urgent matter. We look forward to your prompt response.

Sincerely,

[Your Name]
[Your Position]
[Your Company]
