Dear [Author Name],

Thank you for submitting your manuscript titled "[*Manuscript Title*]" to the Journal of Innovative Research. We appreciate the opportunity to consider your work. After a thorough evaluation by our peer reviewers, we regret to inform you that we are unable to accept your manuscript for publication.

The reviewers provided valuable feedback that we would like to share with you:

- The methodology requires further elaboration, especially on the sample size and selection criteria.
- The results section lacks sufficient statistical analysis, which is critical for substantiating the claims made.
- While the topic is relevant, the literature review is limited and does not sufficiently contextualize the research within existing studies.
- There are several areas of the discussion that could benefit from deeper exploration and critical analysis.

We encourage you to address these points thoroughly and consider submitting a revised manuscript in the future. Your research is important, and with appropriate revision, it could make a significant contribution to the field.

Thank you once again for considering our journal for your work. We wish you the best in your future research endeavors.

Sincerely,

[Editor Name]

Editor-in-Chief
