Dear [Recipient Name],

I am writing to express my support for the provision of supplementary information for the article titled "[Article Title]," authored by [Author Names], which is being considered for publication in [Journal Name].

Supplementary information is pivotal in enhancing the understanding of the research findings presented in the article. It provides additional context, detailed methodologies, and relevant data that are essential for the scientific community to assess and build upon the work.

Moreover, this supplementary material will greatly benefit researchers and practitioners in the field by offering insights that are not always feasible to include in the main manuscript due to space constraints. I believe that the inclusion of this information will significantly contribute to fostering transparency and reproducibility in research.

Thank you for considering this important aspect of the manuscript. I fully support the authors' decision to provide supplementary information, and I encourage you to facilitate its inclusion.

Sincerely,

[Your Name]
