Dear [Recipient Name],

I am writing to propose a research project focused on Human Rights Impact Assessments (HRIAs) and their implications for policy-making. The objective of this research is to analyze current practices in HRIAs, evaluate their effectiveness, and develop a comprehensive framework to enhance their impact.

This research will involve a thorough review of existing literature, case studies, and interviews with key stakeholders in the field of human rights and policy implementation. By identifying best practices and areas for improvement, this project aims to contribute to the development of more equitable policies that prioritize human rights.

The expected outcomes of this research include:

- A detailed report on the state of HRIAs in various sectors.
- Recommendations for improving the HRIA process.
- A presentation of findings to relevant stakeholders and policymakers.

I believe that this research aligns well with [Recipient Organization/Department]'s goals of promoting and protecting human rights. I am keen to explore potential collaborations and seek funding opportunities to advance this important work.

Thank you for considering this proposal. I look forward to the possibility of discussing it further.

Sincerely,  
[Your Name]
