

Dear Sponsor,

My name is Maria, and I am 12 years old. I live in a small village in Peru.

First, I want to thank you for supporting my education and my family. Your kindness has made a significant difference in my life.

This year, I have been learning a lot in school. My favorite subject is mathematics because I love solving problems. I hope to become a teacher one day so I can help other children learn.

I enjoy playing soccer with my friends at the local field. We have so much fun together, laughing and enjoying the game. Sometimes, we organize small matches with other children from nearby villages.

In my free time, I help my mother in the garden. We grow vegetables that we eat and sell in the market. This helps us a lot, and I feel proud to contribute to my family.

Thank you once again for your support. I pray for you and your family every day. Please write back when you can; I would love to hear about your life!

With love,

Maria
