Dear [Financial Aid Office/Recipient's Name],

I hope this message finds you well. I am writing to discuss the impact of financial aid on my college savings plan as I prepare for my upcoming academic year at [College/University Name].

As I have been planning for my education, I established a college savings plan intended to cover various expenses associated with my studies. However, the financial aid awarded to me through [specific program or scholarship] has raised questions regarding how it will affect the overall contributions and disbursements from my savings plan.

Specifically, I would like to understand how my aid package will coordinate with my existing savings and whether there are any implications for future contributions or withdrawals allowed from my college savings plan. My goal is to make informed decisions to maximize the resources available for my education while staying compliant with any financial aid regulations.

Thank you for your assistance in clarifying these matters. I look forward to your timely response.

Sincerely,

[Your Name]
