Dr. Jane Doe
Surgical Specialist
456 Care Blvd.
Cityville, State 12345

Dear Dr. Doe,

I am writing to refer my patient, Mr. Robert Brown, a 45-year-old male, for specialty assessment regarding his ongoing abdominal pain and potential surgical intervention.

Mr. Brown has been experiencing symptoms for approximately six months, with worsening pain over the last month. His medical history includes:

- Hypertension
- Hyperlipidemia
- No known drug allergies

Previous investigations include:

- Abdominal ultrasound - No abnormalities detected
- CT scan - Suggestive of possible gallbladder issues

He has been managed conservatively with pain management and dietary modifications but has shown minimal response to treatment.

I believe a surgical assessment is warranted at this stage. Please find attached the relevant medical records and imaging results for your review.

Thank you for your attention to this referral. Please feel free to contact me if you require any additional information.

Sincerely,

Dr. John Smith
General Practitioner
