Dear [Patient Name],

Thank you for visiting our clinic for your allergy testing. We have received the results of your allergy tests, and we would like to explain them to you.

## Test Results Summary

Allergen	Result
Pollen	Positive
Dust Mites	Negative
Pet Dander	Positive

## Explanation of Results

Your tests indicate that you are allergic to pollen and pet dander. A positive result means that your body has produced an immune response to these allergens.

## Next Steps

We recommend the following actions:

- Avoid exposure to identified allergens.
- Consider medication options to manage symptoms.
- Schedule a follow-up appointment for further discussion.

If you have any questions or concerns regarding your test results, please do not hesitate to contact our office.

Sincerely,
