

Dear Parents and Guardians,

We hope this letter finds you well. As part of our commitment to the health and wellbeing of your children, we are pleased to provide you with important information regarding pediatric vaccinations.

Why Vaccinate?

Vaccinations play a crucial role in protecting your child from serious diseases. They help build immunity and prevent outbreaks of illnesses that can be harmful to children.

Vaccination Schedule

Please find below the recommended vaccination schedule for children:

- Birth - Hepatitis B (HBV)
- 2 Months - Diphtheria, Tetanus, Pertussis (DTaP), Haemophilus influenzae type b (Hib), Polio (IPV), Pneumococcal (PCV)
- 4 Months - DTaP, Hib, IPV, PCV
- 6 Months - HBV, DTaP, Hib, IPV, PCV
- 12-15 Months - Measles, Mumps, Rubella (MMR), Hib, PCV
- 4-6 Years - DTaP, IPV, MMR
