

# Pediatric Vaccination Policy Overview for Schools

Dear Parents and Guardians,

As part of our commitment to ensuring a safe and healthy environment for all students, we would like to provide you with an overview of our pediatric vaccination policy.

## Purpose

The pediatric vaccination policy aims to protect children from preventable diseases and to promote public health within our school community.

## Vaccination Requirements

- All students are required to have vaccinations in accordance with state law.
- Vaccination records must be submitted to the school health office by the first day of school.
- Students who are not vaccinated may be excluded from school during outbreaks of vaccine-preventable diseases.

## Exemptions

Exemptions may be granted for medical reasons or for religious beliefs. Parents must provide appropriate documentation to the school health office.

## Importance of Vaccination

Vaccination not only protects individual children but also contributes to the health of the entire community by achieving herd immunity.

## Resources

For more information on vaccination schedules and services, please visit:
