Subject: Feedback on Your Engineering Design Proposal

Dear [Recipient's Name],

Thank you for submitting your engineering design proposal titled "[Proposal Title]". We appreciate the time and effort you invested in this project.

## General Impressions

Your proposal presented a clear overview of the project objectives and the methodology to achieve them. The incorporation of relevant data and designs was commendable.

## Strengths

- Thorough analysis of existing technologies.
- Innovative approach to problem-solving.
- Clear and concise documentation.

## Areas for Improvement

- Further clarification on budget allocation is needed.
- Consider expanding the timeline details for implementation.
- Incorporate more visual aids to enhance understanding.

We encourage you to revise your proposal with these suggestions in mind and resubmit it for further evaluation. We believe that with these adjustments, your project has the potential to excel.

Thank you once again for your hard work, and we look forward to your revised proposal.

Sincerely,

[Your Name]
