

Appliance Maintenance Tips

Dear [Recipient's Name],

We hope this message finds you well. To ensure your appliances are running efficiently and to extend their lifespan, we would like to share some essential maintenance tips:

1. Refrigerator

- Clean the condenser coils every six months.
- Check the door seals for any leaks.
- Keep the temperature between 35degF and 38degF.

2. Dishwasher

- Run a cleaning cycle with a dishwasher cleaner monthly.
- Inspect and clean the drain filter regularly.
- Use rinse aid to enhance performance.

3. Washing Machine

- Leave the door open to avoid mold buildup.
- Check and clean the detergent dispenser.
- Run a hot water cycle with vinegar once a month.

By following these tips, you can help keep your appliances functioning at their best. If you have any questions, feel free to reach out.

Best regards,
