Subject: Capacity Planning for Upcoming Seasonal Demand

Dear [Supplier Contact Name],

As we approach the upcoming season, we would like to discuss and plan for potential fluctuations in demand for our products. Given the historical trends, we anticipate a significant increase in orders during [specify season, e.g., "the holiday season"] and want to ensure that our supply chain remains robust to meet customer needs.

We kindly request the following information to help us collaboratively prepare for this seasonal surge:

- Current production capacity and any foreseen constraints.
- Lead times for raw materials and finished products.
- Any planned maintenance downtimes or schedule changes.
- Availability of additional resources or labor during peak times.
- Suggestions to enhance our supply chain efficiency during this period.

We believe that with proper planning and communication, we can effectively manage the upcoming demands and maintain a seamless flow of products to our customers.

Please let us know a suitable time for a discussion and if you require any additional information from our side.

Thank you for your attention and partnership. We look forward to your prompt response.

Sincerely,

[Your Name]
