Subject: Assessment of Adjustable-Rate Mortgage Impact

Dear [Recipient's Name],

As part of our ongoing efforts to evaluate the financial implications of our adjustable-rate mortgage (ARM) products, we have conducted a thorough assessment of potential impacts on borrowers in different economic scenarios.

## Key Findings

- **Interest Rate Fluctuations:** Borrowers may face increased monthly payments as interest rates rise.
- **Payment Shock:** Significant changes in market rates can lead to a substantial increase in payments upon adjustment.
- **Long-term Affordability:** Many borrowers may experience difficulty in maintaining affordability over the life of the loan.

## Recommendations

1. Implement educational programs to inform borrowers about ARM risks.
2. Offer fixed-rate options as alternatives for long-term stability.
3. Monitor market trends to adjust products accordingly.

We encourage further discussion on this matter to ensure our borrowers are well-informed and prepared for future adjustments.

Thank you for your attention to this important assessment.

Sincerely,

[Your Name]
