Referral Details

Dear Dr. Doe,

I am writing to refer my patient, Emily Johnson, for an endocrinology review. Emily has been experiencing symptoms consistent with thyroid dysfunction, including weight fluctuations, fatigue, and mood changes.

Her recent lab results indicated elevated TSH levels and low free T4. Given her history and symptoms, I believe an evaluation by an endocrinologist is warranted for appropriate management and diagnosis.

Please find attached the necessary medical records and lab results for your review.

Thank you for your attention to this matter. Please do not hesitate to contact me should you need further information.

Sincerely,

Dr. John Smith
