

# Patient Discharge Summary

**Patient Name:** John Doe

**Date of Birth:** January 1, 1980

**Medical Record Number:** 123456

**Date of Discharge:** October 1, 2023

## Diagnosis

Chronic Heart Failure (CHF)

## Summary of Hospital Stay

Mr. John Doe was admitted on September 25, 2023, with complaints of shortness of breath and edema. During his stay, he was started on diuretics and optimal heart failure management. His condition improved and he is stable for discharge.

## Medications at Discharge

- Furosemide 40 mg, orally, once daily
- Enalapril 10 mg, orally, once daily
- Carvedilol 6.25 mg, orally, twice daily

## Follow-Up Care

Please schedule a follow-up appointment with your cardiologist within one week of discharge.

## Patient Education

Education was provided on dietary restrictions (low sodium), daily weight monitoring, and signs of worsening heart failure. A handout on self-management was also provided.

## Contact Information

If you have any questions or concerns, please contact the clinic at (555) 123-4567.

**Discharging Physician:** Dr. Jane Smith
