

Dear Parents/Guardians,

We value the trust you place in us when it comes to your child's health and wellbeing. This letter serves to explain the principles of patient confidentiality that guide our practice.

As healthcare providers, we are committed to protecting the privacy of our young patients. This means that information regarding your child's health, diagnosis, and treatment will be kept confidential and shared only with individuals who have a legitimate need to know.

In certain cases, such as medical emergencies or when there is a risk of harm, we may need to disclose information without consent to ensure your child's safety. We also encourage open communication with your child about their health, which can foster a supportive environment for their care.

If you have any questions or concerns regarding our confidentiality policies or your child's care, please do not hesitate to reach out to us.

Thank you for your understanding and cooperation.

Sincerely,
Your Healthcare Team
