To: Dr. Jane Doe
Specialty: Cardiologist
Address: 456 Other Street, Cityville, ST 12345

Dear Dr. Doe,

I am writing to refer my patient, **Mr. James Brown**, a 58-year-old male, for specialist consultation regarding his ongoing cardiovascular issues. He has been experiencing persistent chest pain and shortness of breath for the past month.

Mr. Brown's medical history includes hypertension and hyperlipidemia, both of which are currently being managed with medication. An ECG and initial blood work have been performed, indicating potential concerns that require your expert evaluation.

Please find the attached medical records for your review. I believe your expertise will be invaluable in determining the appropriate course of action for Mr. Brown's health.

If you could arrange an appointment for him at your earliest convenience, I would greatly appreciate it.

Thank you for your attention to this matter. Please do not hesitate to contact me if you require any further information.

Sincerely,
Dr. John Smith
General Practitioner
