

Employee Diversity Initiative Update

Dear Team,

We are excited to share the latest updates on our Employee Diversity Initiative. Over the past quarter, we have made significant progress in fostering a more inclusive and diverse workplace.

- **Recruitment Efforts:** We have partnered with several community organizations to reach a broader candidate pool.
- **Training Programs:** We launched unconscious bias training sessions for all staff members, which received positive feedback.
- **Employee Resource Groups:** We've established new resource groups for underrepresented employees to provide support and networking opportunities.
- **Diversity Metrics:** Our data shows a 15% increase in diverse hires compared to last year.

We are committed to continuing our work towards a diverse and inclusive environment. Thank you for your ongoing support in this initiative.

Best regards,
