

Patient Discharge Summary

Patient Name: John Doe

Date of Admission: September 1, 2023

Date of Discharge: September 30, 2023

Rehabilitation Facility: XYZ Rehabilitation Center

Summary of Care

Mr. John Doe was admitted for rehabilitation following a knee replacement surgery. During his stay, he participated in physical therapy and occupational therapy to improve mobility and strength.

Progress

Throughout the rehabilitation process, Mr. Doe demonstrated significant improvement. He progressed from using a walker to walking independently and showed a marked increase in his range of motion.

Discharge Instructions

- Continue prescribed physical therapy for at least 4 weeks.
- Take medications as prescribed for pain management.
- Follow up with your orthopedic surgeon in 2 weeks.
- Apply ice to the knee for swelling as needed.

Conclusion

Mr. Doe has successfully completed his rehabilitation program and is ready to transition back to home. He has been advised to adhere to follow-up appointments and continue his exercise regimen.
