

# Hospital Visitation Policies for End-of-Life Care

Date: [Insert Date]

Dear [Patient Family Member's Name],

We understand that this is a challenging time for you and your loved ones. Our priority is to provide comfort and support during the end-of-life stage of care. Please take note of the following visitation policies to ensure a peaceful environment for patients and their families:

## Visitation Hours

Visitors are welcome at any time; however, we recommend quiet hours from 10 PM to 7 AM.

## Limit on Visitors

To maintain a serene environment, we encourage a maximum of [insert number] visitors at a time.

## Health and Safety Protocols

All visitors must comply with health guidelines, including hand hygiene and wearing appropriate personal protective equipment (PPE) when required.

## Special Circumstances

If the patient is nearing the end of life, we allow visitors to remain with them 24/7. Please inform the nursing staff of your intentions to stay overnight.

## Communication with Staff

We encourage open communication. Please feel free to ask any questions regarding patient care or the visitation process.

Thank you for your cooperation and understanding. We are here to support you during this difficult time.

Sincerely,

[Your Name]  
[Your Title]  
[Hospital Name]
