

Hospital Visitation Rules for Pediatric Patients

Dear Visitor,

Thank you for your understanding and cooperation as we work to create a safe and healing environment for our pediatric patients. Please review the following visitation rules:

Visitation Hours

Visiting hours are from 10:00 AM to 8:00 PM daily. Special arrangements can be made for immediate family members in critical situations.

Visitor Limits

Only two visitors are allowed per patient at any given time, and visitors must be at least 12 years old. Exceptions can be made for siblings under the age of 12.

Health and Safety Guidelines

- All visitors must wash their hands prior to entering the patient's room.
- Visitors showing signs of illness (fever, cough, etc.) are prohibited from visiting.
- Face masks must be worn at all times within the hospital premises.

Child Supervision

Children who visit must be supervised by an adult at all times. Please ensure they remain in the patient's area and do not disturb other patients.

Food and Drink

Food and drinks are not permitted in patient rooms. Please use designated areas for consumption.

We appreciate your partnership in ensuring the well-being of our patients. Thank you for your adherence to these guidelines.

Sincerely,

The Pediatric Care Team
