

Vaccination Side Effects Guidance

Dear [Patient's Name],

Thank you for getting vaccinated! We appreciate your commitment to your health and the health of others in our community.

Possible Side Effects

After receiving the vaccine, you may experience some side effects. Common side effects include:

- Pain or swelling at the injection site
- Fatigue
- Headache
- Muscle pain
- Chills or fever

What to Do

Most side effects are mild and temporary. Here are some recommendations:

- Rest and hydrate
- Apply a cool compress to the injection site
- Take over-the-counter pain relief if necessary

When to Seek Medical Attention

If you experience any of the following severe symptoms, please contact your healthcare provider immediately:

- Difficulty breathing
- Severe allergic reaction (rash, swelling, etc.)
- High fever (>104degF)

If you have any questions or concerns, please do not hesitate to reach out to us at [Contact Information].

Thank you for your understanding and cooperation.

Sincerely,

[Your Name]
