

Diabetes Risk Assessment Letter

Date: [Insert Date]

To: [Patient's Name]

[Patient's Address]

[City, State, ZIP Code]

Dear [Patient's Name],

We hope this letter finds you well. We are writing to discuss your recent diagnosis of gestational diabetes and the importance of following up with a diabetes risk assessment.

As you are aware, gestational diabetes can increase your risk of developing type 2 diabetes later in life. It is crucial to monitor your health and take preventive measures to reduce this risk.

We recommend that you schedule an appointment with our healthcare team for a comprehensive diabetes risk assessment. During this assessment, we will evaluate your medical history, lifestyle, and any necessary laboratory tests to determine your current risk level.

Please contact our office at [Office Phone Number] to set up an appointment at your earliest convenience. Early intervention is key to managing your risk and maintaining your overall health.

Thank you for prioritizing your health, and we look forward to assisting you on this journey.

Sincerely,

[Your Name]
