

# Feedback on Primary Care Physician Continuity

Date: [Insert Date]

Dear [Physician's Name],

I hope this message finds you well. I am writing to provide some feedback regarding my recent experiences with your practice and to discuss the importance of continuity in primary care.

Firstly, I would like to express my appreciation for the care I have received under your guidance. Your attention to detail and willingness to listen have been invaluable during my visits. It has made me feel comfortable and supported in managing my health.

However, I have noticed some challenges concerning continuity during my visits. [Insert specific examples or incidents that illustrate your concerns regarding continuity, e.g., changes in care approach, lack of follow-up, etc.] This has affected my confidence in the treatment plan and my overall experience.

Continuity of care is essential for effective health management, and I believe that addressing these issues could significantly improve patient outcomes. I would appreciate it if we could have a discussion about how we might ensure that my health history and treatment plan are consistently referenced in future visits.

Thank you for your attention to this matter. I look forward to your response and to continuing my care under your expertise.

Sincerely,

[Your Name]
