

Personalized Mobility Device Options

Dear [Patient's Name],

We understand that mobility is an essential part of your independence and well-being. Based on our recent assessment of your needs, we have outlined some personalized options for mobility devices that may suit you:

1. Wheelchairs

Manual Wheelchair: Lightweight and easy to maneuver, ideal for short distances.

Powered Wheelchair: Motorized option for greater ease over longer distances.

2. Walkers

Standard Walker: Provides stability with its four legs, best for indoor use.

Rolling Walker: Features wheels for smooth movement, suitable for outdoor use.

3. Scooters

Three-Wheel Scooter: Compact and great for tight spaces, ideal for shopping or short trips.

Four-Wheel Scooter: Offers more stability, perfect for extended outdoor use.

We encourage you to review these options and let us know your preferences. Please feel free to reach out for any questions or to schedule a follow-up appointment to discuss your choices further.

Sincerely,

[Your Name]
