

Dear [Salon Name] Team,

As part of our ongoing commitment to client safety and well-being, we would like to remind you of important skin cancer prevention best practices that should be adhered to in our salon.

Best Practices for Skin Cancer Prevention

- **Educate Clients:** Provide information on the risks associated with UV exposure and the importance of skin protection.
- **Use Sunscreen:** Offer a broad-spectrum SPF 30 or higher sunscreen to clients and encourage daily use.
- **Shade Options:** Create shaded areas for outdoor services and recommend clients seek shade whenever possible.
- **Regular Skin Checks:** Encourage clients to perform regular self-examinations for unusual moles or skin changes.
- **Protective Gear:** Wear appropriate protective clothing and provide clients with hats or UV-protective garments during treatments.

Conclusion

By following these best practices, we can contribute to the prevention of skin cancer and promote the overall health of our clients. Thank you for your dedication to ensuring a safe and informed environment in our salon.

Sincerely,
[Your Name]
