Dear [Utility Company Contact/Department Name],

I am writing to request an upgrade to my utility service to accommodate the installation of a solar energy system at my residence located at [Your Address].

As part of my commitment to renewable energy, I am planning to install a solar panel system, which will require an update to my current electrical service. I would like to request the following upgrades:

- Upgrade of my service from [Current Amperage] to [Requested Amperage]
- Installation of necessary infrastructure to support solar energy connection
- Inspection and approval of new system integration

Attached are the necessary documents detailing the solar installation plan, including specifications and approval from my solar contractor, [Contractor's Name]. I am keen to proceed with my solar project and would appreciate your prompt assistance in processing this upgrade request.

Thank you for your attention to this matter. Please feel free to contact me at [Your Phone Number] or [Your Email Address] if you require further information or clarification.

Sincerely,

[Your Name]
