Dear [Utility Company's Contact Person],

I hope this message finds you well. My name is [Your Name], and I am writing to request information regarding the utility tariff options available for renewable energy sources.

As we look to explore sustainable energy solutions for our community/residential needs, we are particularly interested in understanding the various renewable energy tariffs that your company offers. Specifically, we would like information on:

- Current rates for solar, wind, and other renewable energy sources
- Any incentives or rebates for residential or commercial installations
- Net metering policies and procedures
- Long-term contracts for renewable energy supply

We are eager to assess how these options align with our goals of reducing our carbon footprint and contributing to a sustainable future. We would appreciate it if you could send us any brochures, documents, or links to resources that detail these tariff options.

Thank you for your attention to this matter. I look forward to your prompt response.

Sincerely,

[Your Name]
