

Utility Storm Readiness Checklist for Homeowners

Dear Homeowner,

As storm season approaches, it's essential to make sure you are prepared. Below is a checklist to help you get ready:

Utility Storm Readiness Checklist

- Ensure you have a supply of non-perishable food and water for at least three days.
- Check your emergency supplies: flashlight, batteries, first aid kit, and medications.
- Secure outdoor furniture and decorations that could become projectiles in high winds.
- Inspect your home's drainage system and clear any debris from gutters and downspouts.
- Charge all electronic devices and have a backup power source ready, such as a generator.
- Review your homeowner's insurance policy to verify coverage on storm damage.
- Make a family communication plan in case you get separated during a storm.
- Stay informed by signing up for local alerts and weather notifications.

We encourage you to take these precautions seriously. Preparedness can minimize the impact of storms on you and your property.

Thank you for your attention to this important matter.

Sincerely,

Your Utility Provider
