API Usage Instructions

Dear Developer,

Thank you for your interest in our API. Below are the instructions to help you get started:

Getting Started

1. Sign up for an API key at our developer portal.
2. Review the API documentation linked [here](#).
3. Install any necessary SDKs or libraries.

Making Your First Request

To make your first API call, use the following sample code:

```
fetch('https://api.example.com/v1/resource', {
 method: 'GET',
 headers: {
 'Authorization': 'Bearer YOUR_API_KEY'
 }
})
.then(response => response.json())
.then(data => console.log(data));
```

Common Errors

Please be aware of the following common errors:

- 401 Unauthorized: Check your API key.
- 404 Not Found: Verify the endpoint URL.
- 500 Internal Server Error: Contact support for assistance.

Support

If you have any questions, please reach out to our support team at support@example.com.

Best Regards,
The API Team
