From: [Your Name]

Subject: Request for Enhanced Communication

---

Dear [Teacher's Name],

I hope this message finds you well. I am writing to discuss the importance of transparent communication between teachers and students (and parents) regarding academic expectations and progress.

It has come to my attention that clearer guidelines and more timely updates on assignments and assessments would greatly benefit students in understanding their academic standing. Transparency in communication can also foster a more collaborative learning environment.

Would it be possible to implement regular updates on assignments, as well as feedback sessions that would help clarify any uncertainties? I believe this could enhance students' learning experiences and promote a stronger connection between us.

Thank you for considering this request. I appreciate all of your efforts in supporting our education.

Sincerely,

[Your Name]
