

Seasonal Maintenance Checklist

Dear [Homeowner's Name],

As we transition into [Season], it's important to ensure that your home remains in optimal condition. Below is your DIY Seasonal Maintenance Checklist:

[Season] Maintenance Tasks:

- Inspect and clean gutters and downspouts.
- Check the roof for any damaged shingles.
- Inspect windows and doors for air leaks; caulk where necessary.
- Service your heating system; replace filters if needed.
- Test smoke and carbon monoxide detectors.
- Clean and organize sheds, garages, and outdoor spaces.
- Inspect outdoor faucets and hoses for leaks, and winterize if necessary.

Taking these proactive steps will help you maintain the safety and efficiency of your home. If you need any assistance or services, feel free to reach out.

Best regards,
