City Council

456 City Hall

Townsville, ST 12345

Dear City Council,

I am writing to formally express my concern regarding the ongoing traffic congestion in our community, particularly along Main Street and Elm Avenue. This issue has been exacerbated by improper vehicle use, including parking in prohibited areas and blocking designated lanes.

The traffic jams have become increasingly problematic, causing delays for commuters and posing safety risks for pedestrians. I urge the council to consider implementing stricter enforcement of parking regulations and to explore other solutions to alleviate the congestion.

Thank you for your attention to this pressing issue. I look forward to your prompt response and action.

Sincerely,

John Doe
