

Patient Discharge Summary

Patient Name: John Doe

Patient ID: 123456

Date of Admission: January 1, 2023

Date of Discharge: January 10, 2023

Attending Physician: Dr. Jane Smith

Summary of Hospital Stay

John Doe was admitted with symptoms of severe abdominal pain. After a series of diagnostic tests, he was diagnosed with appendicitis. The patient underwent an appendectomy on January 3, 2023, and post-operative recovery was smooth with no complications.

Medications at Discharge

- Antibiotic: Amoxicillin 500 mg - Take 1 capsule every 8 hours for 7 days
- Pain Relief: Ibuprofen 400 mg - Take as needed for pain

Follow-Up Care

The patient is advised to schedule a follow-up appointment with Dr. Jane Smith within the next two weeks to monitor recovery and discuss further care.

Instructions for Home Care

- Rest and avoid heavy lifting for at least 2 weeks.
- Monitor for any signs of infection, such as fever or increased redness at the incision site.
- Maintain a balanced diet and hydrate adequately.
